

**SAN LUIS & DELTA-MENDOTA WATER AUTHORITY**

**TEMPERANCE FLAT RESERVOIR PROJECT ACTIVITY AGREEMENT**

This **TEMPERANCE FLAT RESERVOIR PROJECT ACTIVITY AGREEMENT** (“Activity Agreement”) is made effective as of [DATE] (the “Effective Date”), by and among the San Luis & Delta-Mendota Water Authority, a joint powers agency of the State of California (“Authority”), and its members who execute this Activity Agreement (“Members”). Capitalized terms used in this Activity Agreement shall have the meanings set forth in Section 2 below.

**1. RECITALS**

A. The Members, together with certain other local agencies, have entered into an amended and restated Joint Exercise of Powers Agreement-San Luis & Delta-Mendota Water Authority dated as of January 1, 1992 (the “**JPA**” or “**JPA Agreement**”), by and among the parties indicated therein, establishing the Authority for the purpose of exercising the common powers of the Members, including those powers described in this Activity Agreement.

B. The Members are each empowered, among other powers, to provide water service to lands within their boundaries; to operate and maintain works and facilities for the development, distribution and use of water for irrigation and for any drainage or reclamation works connected therewith or incidental thereto and/or to operate and maintain works and facilities for the development, distribution and use of water for municipal and industrial use; to contract with the United States, the State and other public agencies and, effective January 1, 1995, with mutual water companies, for such purposes; to control the quality of water accepted into their respective systems; to exercise powers related to the construction, operation, or maintenance of water storage and delivery facilities; and to adopt rules and regulations necessary to the exercise of such powers.

C. The members of the Authority all have entered into contracts with the United States for water from the Central Valley Project (“**CVP**”) for irrigation and/or M&I purposes within their respective jurisdictional areas and receive water conveyed through the Delta-Mendota Canal, the San Luis Canal, and/or the Pacheco Pumping Plant and Tunnel.

D. For several years to come, because of hydrologic conditions and/or regulatory constraints, the operation of the CVP by the United States Bureau of Reclamation (“**Reclamation**”)

will likely result in a shortage of storage opportunities south of the Sacramento-San Joaquin Delta (“Delta”), which may result in less water being made available to the members of the Authority than required to meet the demands of their customers.

E. The Authority and some of the Members, together with Reclamation and other public agencies have considered the feasibility of a second dam on the San Joaquin River behind Friant Dam to, among other things, increase water storage capacity on the San Joaquin River.

F. The location of the proposed second dam and reservoir is in an area commonly known as Temperance Flat. As such, the proposed project pertaining to the feasibility studies, design, permitting, construction, management, and ultimately operation of a dam and reservoir and related facilities at Temperance Flat is referred to in this Activity Agreement as the “**Temperance Flat Reservoir Project**” or “**Project.**”

G. To provide a short-term mechanism for financing and managing the preparation of additional analyses and studies regarding the potential benefits and feasibility of the Project, as well as other preconstruction activities, the Authority intend to enter into a memorandum of understanding that would address how entities interested in the Temperance Flat Reservoir Project will coordinate, cooperate, and cost share on preconstruction activities (“**Temperance Flat MOU**”).

H. Each of the parties to this Activity Agreement desires to participate in the benefits and is willing to incur the obligations of the Temperance Flat MOU, through the joint exercise of the powers common to each of the parties.
