

**Grassland Basin Drainage Steering Committee  
Regular Meeting of the Steering Committee**

**Friday, June 20, 2025 ~ 9:30 a.m.**

**San Luis & Delta-Mendota Water Authority Boardroom  
842 6<sup>th</sup> Street, Los Banos, California**

**Telephonic Participation**

Conference Call Dial-in: 1-623-600-3769

Conference Code: 518817

**AGENDA**

NOTE: Any member of the public may address the GBD Steering Committee concerning any item on the agenda before or during consideration of that item, as appropriate. For each item, public comment is limited to no more than three minutes per person. For good cause, the Committee Chair may waive this limitation. Committee Members/Alternates may discuss items listed on the agenda or add to the agenda as necessary, in accordance with Government Code section 54954.2, subd. (b)(2).

1. Call to Order/Roll Call
2. Corrections or Additions to the Agenda, as authorized by Government Code section 54950 et seq.
3. Opportunity for Public Comment

**Action Items**

4. **Committee to Consider Approving February 21, 2025 Regular Meeting Minutes**
5. **Committee to Consider Acceptance of the Financial Report**

**Report Items**

6. Committee to Receive Report on the Mud Slough Restoration Program
7. Committee to Receive Report on the Status of the Prop 84 Grant Program

8. Grassland Bypass Project Updates:
  - a. Operations Report
  - b. Monitoring Program and Toxicity Data Report
  - c. Summary of June 11, 2025 Growers Workshop
9. Update on Waste Discharge Requirements for Discharge to Groundwater, Grassland Drainage Area Coalition
  - a. Nitrogen Management Zone Plan – Valley Water Collaborative; Delta-Mendota Advisory Committee.
10. Reports from District Representatives
11. Reports on Other Items Pursuant to Government Code Section 54954.2(a)(3)
12. Date and Time of Next Meeting
13. CLOSED SESSION
  - Conference with Legal Counsel on Existing Litigation Pursuant to Paragraph (1) Subdivision (d) of Government Code Section 54956.9
  - a. Pacific Coast Federation of Fishermen's Associations, et al. v. Conant, et al. (formerly Glaser, et al.), U.S. District Court, E.D. Cal., Case No. 2:11-cv-02980; 9th Cir. Case No. 23-15599

Committee Member Kevin Hurd moved to accept the November 15, 2024 minutes as corrected, the motion was seconded by Alternate Committee Member Patrick McGowan and passed unanimously.

|              |                                |
|--------------|--------------------------------|
| AYES:        | Cory, Barcellos, Hurd, McGowan |
| NAYS:        | None                           |
| ABSTENTIONS: | None                           |

#### **5. Committee to Consider Acceptance of Financial Expenditures Report.**

Drainage Coordinator Chris Linneman discussed the estimated dues for the member agencies in Fiscal Year 25-26. Linneman addressed questions on carryover funds, reserve funds and noted an adjusted cash carryover amount of \$588,097. The Committee requested Linneman use the dues calculations that reflected the cash carryover amount. Linneman then presented the Financial Report for the period: 1/31/24 – 1/31/25 (receivables) and the period 3/1/24 – 12/31/24 for (Budget to Actual) and noted 54 % of the budget remains. Committee Member Kevin Hurd moved for acceptance of the Financial Expenditures Report as presented; the motion was seconded by Committee Member Patrick McGowan and passed unanimously.

|              |                                |
|--------------|--------------------------------|
| AYES:        | Cory, Barcellos, Hurd, McGowan |
| NAYS:        | None                           |
| ABSTENTIONS: | None                           |

#### **6. Committee to Receive Report on Mud Slough Restoration Project**

Drainage Coordinator Chris Linneman reported no activity on the project.

#### **7. Committee to Receive Report on the Status of the Prop 84 Grant Program**

Drainage Coordinator Chris Linneman reported the Prop 84 Grant is still moving forward on the San Joaquin River Water Quality Improvement Project (SJRWQIP), with approximately \$16 Million remaining all of which is allocated to a project. Linneman concluded by stating; a new pump station project and field consolidation continue.

#### **8. Grassland Bypass Project Updates**

- a. Operations Report – Drainage Coordinator Chris Linneman referred to maps detailing all the discharge points for the project in today's meeting packet. A graph of Sites A and B discharge amounts and rainfall events through January 27, 2025 was reviewed. Mud Slough selenium, flow, goals and averages for January 1, 2024– January 27, 2025 was reviewed. Next the Site D Mud Slough (North) Downstream San Luis

Drain – selenium concentration on a daily, 7-day average and monthly average selenium concentrations and goals were presented with Mud Slough Selenium levels below 1 part per billion. Linneman concluded by reporting on Site B Monthly Salt Load and Site R Selenium concentrations. Linnemann noted selenium requirements have been attained at all sites.

- b. **Monitoring Program and Toxicity Data Report** – Drainage Coordinator Chris Linneman presented and the Committee reviewed events 116,117 and 118; samples collected November 4, 2024, December 9, 2024 and January 22, 2025. Linneman noted no toxicity in the events. The Committee gave direction to release the Toxicity data.
- c. **Summary of Annual Stakeholder Meeting** - Drainage Coordinator Chris Linneman noted this meeting was for our Waste Discharge requirements was attended by Regional Board Staff, Reclamation, Contra Costa and others. Linneman noted the meeting went well and was uneventful.

**9. Update on Waste Discharge Requirements for Discharge to Groundwater Water for the Grassland Drainage Area Coalition**

- a. **Nitrogen Management Zone Plan - Valley Water Collaborative; Delta – Mendota Advisory Committee** - Drainage Coordinator Chris Linneman explained all plans have been submitted. David Cory noted the will be assembling next week.

**10. Reports from District Representatives** – Chase Hurly inquired about the consolidation of the Grassland Basin Drainers and the Grassland Basin Authority. It was noted a few legal issues need to be resolved before a consolidation can occur.

**11. Reports on Other Items Pursuant to Government Code Section 54954.2 (a)(3)** – No other items were presented.

**12. Date and Time of Next Meeting**

It was noted the next meeting will be March 21, at 9:30 a.m.

**13. Closed Session** -No Closed Session occurred.

**14. Return to Open Session** - No Closed Session occurred.

15. Report from Closed Session, if Required by Government Code Section 54957.1

No Report.

16. Adjournment

Chairman David Cory adjourned the meeting of the Grassland Basin Drainers Steering Committee at 10:30 a.m.

### 3. RESULTS

#### 3.1 Effects of the Grasslands Bypass Project Ambient Water on *Selenastrum capricornutum*

The results for this testing are summarized in Table 2. The TST analysis resulted in a pass, indicating that the sample was not toxic for the growth endpoint. The test data and summary of statistical analyses for this testing are presented in Appendix B.

| Table 2. Effects of Grasslands Bypass Project ambient water on <i>Selenastrum capricornutum</i> |  |              |          |
|---|--|--------------|----------|
| Treatment/Sample ID   | Mean Algal Cell Density<br>(cells/mL x 10 <sup>6</sup> ) | TST Analysis | % Effect |
| Lab Water Control   | 1.80   |              |          |
| GBP-118-D-TE  | 5.32   | Pass         | -195%    |

#### 3.2 Effects of the Grasslands Bypass Project Ambient Water on *Daphnia magna*

The results for this testing are summarized in Table 3. The TST analysis resulted in a pass, indicating that the sample was not toxic for the survival endpoint. The test data and summary of statistical analyses for this testing are presented in Appendix C.

| Table 3. Effects of Grasslands Bypass Project ambient water on <i>Daphnia magna</i> . |                 |              |          |
|---|-----------------|--------------|----------|
| Treatment/Sample ID   | Mean % Survival | TST Analysis | % Effect |
| Lab Water Control   | 100             |              |          |
| GBP-118-D-TE  | 95.0            | Pass         | 5.0%     |

#### 3.3 Effects of the Grasslands Bypass Project Ambient Water on Fathead Minnows

The results for this testing are summarized in Table 4. The TST analysis resulted in a pass, indicating that the sample was not toxic for the survival endpoint. The test data and summary of statistical analyses for this testing are presented in Appendix D.

| Table 4. Effects of Grasslands Bypass Project ambient water on fathead minnows. |                 |              |          |
|---|-----------------|--------------|----------|
| Treatment/Sample ID   | Mean % Survival | TST Analysis | % Effect |
| Lab Water Control   | 97.5            |              |          |
| GBP-118-D-TE  | 100             | Pass         | -2.6%    |

### 3. RESULTS

#### 3.1 Effects of the Grasslands Bypass Project Ambient Water on *Selenastrum capricornutum*

The results for this testing are summarized in Table 2. The TST analysis resulted in a pass, indicating that the sample was not toxic for the growth endpoint. The test data and summary of statistical analyses for this testing are presented in Appendix B.

| Table 2. Effects of Grasslands Bypass Project ambient water on <i>Selenastrum capricornutum</i> |  |              |          |
|---|--|--------------|----------|
| Treatment/Sample ID   | Mean Algal Cell Density<br>(cells/mL x 10 <sup>6</sup> ) | TST Analysis | % Effect |
| Lab Water Control   | 2.34   |              |          |
| GBP-121-D-TE  | 6.57   | Pass         | -181%    |

#### 3.2 Effects of the Grasslands Bypass Project Ambient Water on *Daphnia magna*

The results for this testing are summarized in Table 3. The TST analysis resulted in a pass, indicating that the sample was not toxic for the survival endpoint. The test data and summary of statistical analyses for this testing are presented in Appendix C.

| Table 3. Effects of Grasslands Bypass Project ambient water on <i>Daphnia magna</i> . |                 |              |          |
|---|-----------------|--------------|----------|
| Treatment/Sample ID   | Mean % Survival | TST Analysis | % Effect |
| Lab Water Control   | 100             |              |          |
| GBP-121-D-TE  | 95.0            | Pass         | 5.0%     |

#### 3.3 Effects of the Grasslands Bypass Project Ambient Water on Fathead Minnows

The results for this testing are summarized in Table 4. The TST analysis resulted in a pass, indicating that the sample was not toxic for the survival endpoint. The test data and summary of statistical analyses for this testing are presented in Appendix D.

| Table 4. Effects of Grasslands Bypass Project ambient water on fathead minnows. |                 |              |          |
|---|-----------------|--------------|----------|
| Treatment/Sample ID   | Mean % Survival | TST Analysis | % Effect |
| Lab Water Control   | 100             |              |          |
| GBP-121-D-TE  | 100             | Pass         | 0.0%     |

### 3.4 Effects of the Grasslands Bypass Project Ambient Sediment on *Hyalella azteca*

The results for this testing are summarized in Table 4. The TST analysis resulted in a pass, indicating that the sample was not toxic for the survival endpoint. The test data and summary of statistical analyses for this testing are presented in Appendix E.

| Table 5. Effects of Grasslands Bypass Project ambient sediment on <i>Hyalella azteca</i> . |                 |              |          |
|--|-----------------|--------------|----------|
| Treatment/Sample ID  | Mean % Survival | TST Analysis | % Effect |
| Lab Water Control  | 100             |              |          |
| GBP-121-D-SE   | 98.8            | Pass         | 1.2%     |
